Unusually, Sarah received a large box of sweets! Inside were eight packets of sweets and each packet had eight sweets inside. Sarah was a kind girl so she gave four packets to her brother Ben, who ate all of his sweets straight away!</p> <p>Excitedly, Sarah opened her four packets of sweets and put them in her pocket, so that she could go out to play. Skipping was her favourite thing to do, so Sarah started to skip around her small, paved garden. Little did she realise, but each time she jumped, 4 sweets fell out of her pocket. Luckily, she realised after jumping 4 times. She was upset, but still had some sweets left which she sat and enjoyed.</p> <p><u>ANSWERS</u></p> <ol style="list-style-type: none"> 1. HISTORY ANSWER

This is an example of a timeline (It is not perfectly accurate). One square was used to represent 5 years.

Henry VII

Henry VIII

Edward VI

Lady Jane Grey

Mary I

Elizabeth I

Henry VII

1485 -1509

Henry VIII

1509 -1547

Edward VI

1547 - 1553

Lady Mary I

Jane 1553 - 1558

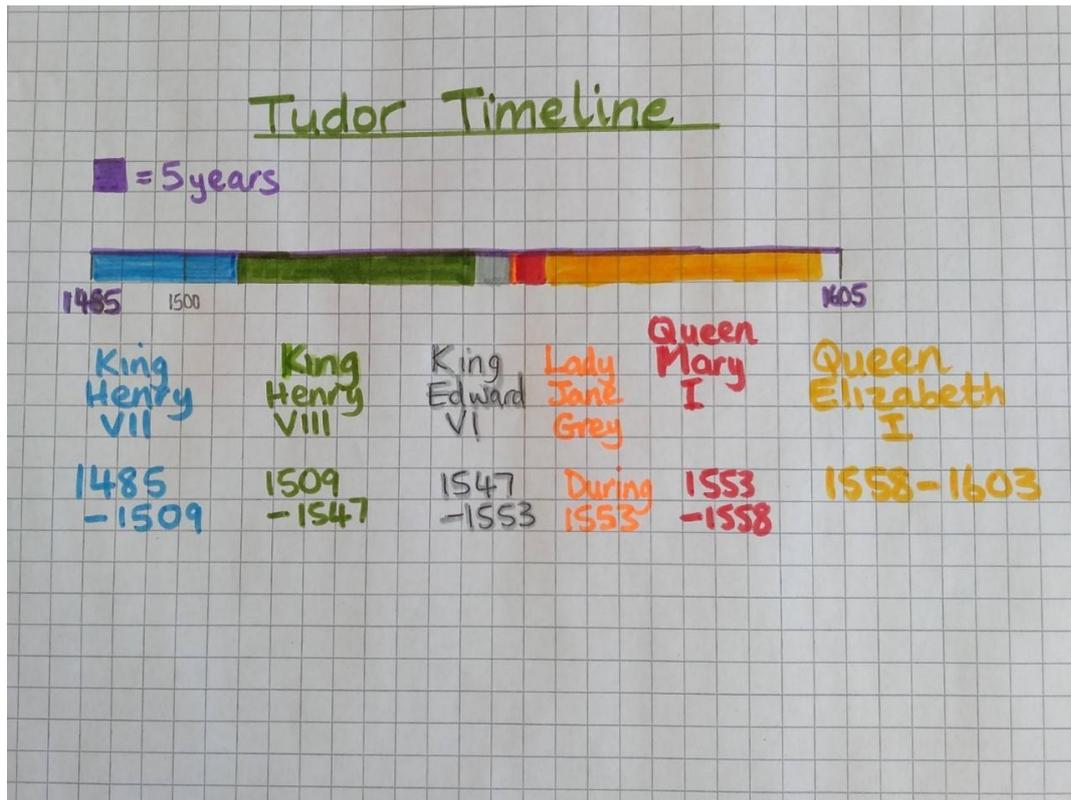

Elizabeth I

1558 -1603

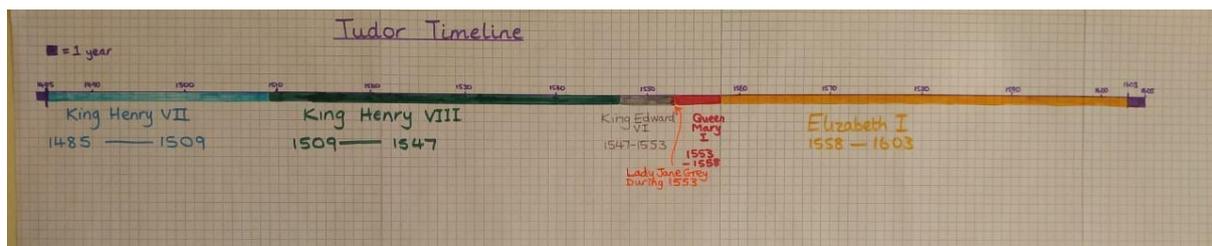

Grey

during 1553

This is an accurate version done on maths paper as you might have done.

If you did a larger version you might have done one like this example, which shows the timeline on maths paper, with one square representing 1 year.

Looking at this timeline, I can say the following about Tudor Kings and Queens.

- Henry VIII reigned for the longest time.
- Elizabeth I reigned as queen for a long time.
- Lady Jane Grey had a very short reign.
- Lady Jane Grey reigned for the shortest time.
- There were three Kings and then three Queens.
