The relics of
St Bernadette

I touched the box that surrounded
the special relic of St Bernadette.

Nathan

I felt special ...kind of strange but
afterwards, I felt the same.

Mya

I felt excited because I was
touching St Bernadette's relic box.
She is a special lady because Our
Lady appeared to her.

Raylan

My favourite part was when we saw the framed mosaic in the church of Our Lady that Pope Benedict gave to the college. I liked it because I liked the art work and how detailed it was.

Isabelle

I noticed that the special golden house had a stained glass picture of St Bernadette on it. I was given a rosary, candles. We lit a candle for St Bernadette outside.

Lena

I liked the mosaic because I knew that the Pope touched it and how beautiful and special it is to the college.

Ollie

I had a wonderful time seeing the relics of St Bernadette as they were in a special place in a golden box. I was the second Pope Paul pupil to kiss the special relic box.

Gabriela

I liked the way we travelled to the church – I learnt facts about St Bernadette and enjoyed the funny journey back to school.

Mark

I had a great time going to the church. I remember seeing the special box. I kissed my hand and placed it on the box.

Hanna

We travelled on 4 trains there and 3 on the way home. I received a special bag from St Mary's University with a rosary, candles and a special fold out book about the apparitions. I now know that Our Lady appeared to Bernadette 18 times!

Herbie
