

Snowflake Coordinates

Aim: I can use coordinates in first quadrant.

1. Use the given coordinates to draw one part of a snowflake.

Line A (0,2) (1,4) (0,5)

Line B (0,7) (1,9) (3,7) (4,10) (6,8) (7,10)

Line C (3,5) (3,6) (7,7) (6,3) (5,3) (6,6) (3,5)

Line D (2,2) (3,4) (4,4) (4,3) (2,2)

Line E (2,0) (4,1) (5,0)

Line F (7,0) (9,1) (7,3) (10,4) (8,6) (10,7)

2. Cut out the whole square and fold into quarters, so the drawn area is on the top.
3. Cut out the given shape.
4. Fold diagonally along the dotted line to cut out the parts within the middle.
