Dear Parents/Carers,

### Re: Whole School Maths Home Learning for World Maths Day- Wednesday, 26<sup>th</sup> March 2025

We are excited to invite you and your children to take part in a special whole school Maths home learning activity to celebrate **World Maths Day on Wednesday, 26<sup>th</sup> March 2025**. This is a fantastic opportunity to explore the wonders of mathematics in our everyday surroundings and encourage a love for problem-solving and discovery!

For this activity, we challenge you to embark on a **Maths Scavenger Hunt!** As a family, search for interesting mathematical patterns around you and capture them in photos. Here are some ideas to get you started:

- **Palindromic numbers** on vehicle number plates (e.g., 1221, 4334)
- **Geometric shapes** found in nature (e.g., hexagonal honey combs, spirals in shells)
- **Polygons with the most sides** you can find in your environment (e.g., tiled floors, road signs)

Once you have found your mathematical patterns, please email the pictures along with your child's name and class to [year2@popepaul.herts.sch.uk](mailto:year2@popepaul.herts.sch.uk) by **noon on Tuesday, 25<sup>th</sup> March 2025**. We will showcase a selection of the most interesting finds during our World Maths Day celebration in school.

We look forward to seeing the creative and mathematical discoveries your family makes. Thank you for your support in making learning exciting and engaging for our children.

If you have any questions, please do not hesitate to contact us.

Best regards,  
Ms Varga  
Maths Subject Leader
